Career Objective

Electrical and Electronics Engineering student with a strong interest in Electric Vehicles and Industrial Manufacturing. Possess working knowledge of Python, Java, Fusion 360, PCB Design, and IoT, with practical exposure to EV systems, battery pack assembly, transformer manufacturing, and quality inspection. Strong in adaptability, teamwork, problem-solving, and time management. Seeking an opportunity to apply technical knowledge, gain hands-on industry experience, and contribute to a professional engineering team.

Education

Bachelor of Engineering in Electrical & Electronics, *Velammal Institute of Technology* 2023 – 2027
CGPA: 7.98(upto 6th sem) Chennai

HSC (Class XII), *Hindu Higher Secondary School* 2022 – 2023
Percentage: 72.5% Watrap, Virudhunagar

SSLC (Class X), *Hindu Higher Secondary School* 2020 – 2021
Percentage:80% Watrap, Virudhunagar

Technical Skills

Programming Languages
(Python, Java, HTML)Basics

Tools & Software
VS Code, Fusion 360, AutoCAD(Basics)

Electrical & Manufacturing
Transformer Manufacturing, Transformer Assembly, Assembly Processes.

Electric Vehicles
EV Fundamentals, Battery Pack Assembly Basics, EV Components.

Industrial Training & Internship

TVS Training and Service Ltd, *EV Training* 11/02/2025 – 15/02/2025
- Assisted in EV battery pack assembly and basic electric vehicle (EV) bike assembly.
- Gained practical exposure to EV architecture, battery systems, electric motors, power electronics, and EV components.
- Observed battery pack assembly processes, component handling, and industrial safety practices.
- Gained exposure to standard engineering workflows and EV manufacturing practices.

EVR Electricals Private Limited, *Manufacturing Intern* 22/06/2026 – 20/07/2026
- Assisted in transformer assembly, transformer manufacturing, and electrical equipment quality inspection.
- Supported component verification, assembly inspection, and defect identification during production.
- Gained hands-on exposure to electrical equipment testing, quality control, and quality assurance processes.
- Followed Standard Operating Procedures, workplace safety practices, and manufacturing guidelines.

Projects

Personal Cloud Storage System Using E-Waste
- Developed a low-cost personal cloud storage system using ESP32, an old laptop, and an external hard disk.
- Implemented secure file upload/download and real-time system monitoring.
- Tested the system for reliable local data storage.

Smart Seat Monitoring and Live Tracking System for Government Buses
- Developed a real-time bus tracking and seat availability monitoring system using GPS, IR sensors, Arduino Uno, ESP8266, and Firebase.
- Implemented live location updates and automated seat-status monitoring.
- Tested sensor integration and data transmission.

Automatic Railway Gate Opening & Closing System:
- Developed an automated railway gate control system using Arduino, IR sensors, servo motors, LCD, and buzzer.
- Implemented train detection and automatic gate control with safety alerts.

Smart Metering System
- Developed a smart energy monitoring system for real-time electrical power consumption analysis.
- Integrated sensors and microcontroller modules for electrical measurement and energy monitoring.

Certifications

NPTEL Cloud Computing (73% -Elite)
Certificates/NPTEL Certificate.pdf at main · vivek61125-hue/Certificates

EVR Electrical Pvt Ltd
Certificates/EVR CERTIFICATE .pdf at main · vivek61125-hue/Certificates

TVS Training and Service Ltd
Certificates/TVS.pdf at main · vivek61125-hue/Certificates

Naan MuthalVan (E_Vehicle Fundamentals)
Certificates/NM_Certificate.pdf at main · vivek61125-hue/Certificates

Naan MuthalVan (PCB Design Using Fusion)
Certificates/NM FUSION Certificate.pdf at main · vivek61125-hue/Certificates

Digital Marketing (Infosys Springboard)
Certificates/Digital Marketing Certificate.pdf at main · vivek61125-hue/Certificates

Awards & Recognition

1st Prize
Technical Quiz, R.M.K. College of Engineering and Technology.

Recognition
Vadiva's Tech & Design Fest for contribution to the Smart Seat Monitoring and Live Tracking System through hardware setup and system testing.
